

UNIQUE FAUX FINISHES

FOR THE PROFESSIONAL AND CONSUMER

CLEAR COAT

Clear acrylic protective finish for any painted finish will not yellow with age. Clear Coat is ideal for protecting large wall areas and can be easily applied by roller. Protect Weathered Crackle, Suede Impressions or Sand Tones in high traffic areas. Gallons & quarts in Ultra Flat, Satin & Gloss, 12 oz. spray in Satin & Gloss.

LIME WASH GLAZE

Acrylic, flat glaze with plastic beads used to create delicate, chalky effects. Lime Wash may also be used to create more dramatic texture, and glazed over for even more stunning results. Quart and half gallon sizes.

TRANSLUCENT COLOR GLAZES

Unique, water based, ready mixed glazes have a superior depth of color offering 45 minutes of open working time. Use over Base Coat for best results. Quart and 750 ml sizes.

- BUFF • MAROON • PINE GREEN • MOSS • BURNT SIENNA • MOCHA
- SALMON • SLATE BLUE • BLUEBELL • MAIZE • TAUPE • KHAKI
- IVORY • BRILLIANT RED • STONE GRAY

CLEAR MIXING GLAZE

Slow drying acrylic translucent glaze to mix with other Special Effects glazes to lessen color intensity, extend working time or re-wet a dried edge. Ideal for mixing with latex paint to create custom glaze colors. Quart, 750 ml and gallon sizes.

OPAL & PEARL IRIDESCENT GLAZE

Iridescent pigments impart light shifting reflectivity to these unique translucent acrylic glazes. Lustrous and shimmering, available in quart and 750 ml sizes.

- PEARL • GOLDEN OPAL • EARTH OPAL

METALLIC GLAZE

Rich metallic effects are easy to achieve with these mica based acrylic glazes. Metallic glazes will not tarnish and do not need added protection. Quart, 750 ml and pint sizes.

- GOLD • BRONZE • COOPER • SILVER • PEWTER • STAINLESS STEEL

CRACKLE FINISHES

Weathered Crackle and Porcelain Crackle are easy to use water-base formulas, designed to impart instantly aged effects to painted surfaces. Weathered Crackle is available in pint, quart and gallon sizes and Porcelain Crackle is available in pint and quart sizes only.

AGING GLAZE

Unique water based glaze that gives a rich antique look. Stays workable for 15 minutes. No mixing required. Available in 8 oz. size.

- PICKLING WHITE • ASPHALTUM

BASE COAT

Specifically formulated for use under Special Effects glazes to result in the longest working time possible, yielding an overall satin effect when dried. Tintable to hundreds of custom colors in quarts and gallons.

SPECIAL EFFECTS®

SUEDE IMPRESSIONS

Subtle texture finish with plastic beads results in a flat finish reminiscent of the nap of authentic suede. Applied in two coats to result in a mottled, textured appearance with unique light and dark areas. Tint base in gallons.

SAND TONES

Texture resembling weathered stone or fine sand beaches in an acrylic wall finish with black and white plastic beads. Apply in two separate coats for a uniform understated texture. Tint base in gallons.

VENETIAN PLASTER

Acrylic plaster containing marble powder and inert pigments for a matte stone or polished marble effect. Create tone on tone color effects or dramatic multi-colored stone finishes with Venetian Plaster Tintable to a full range of Tuscan inspired colors. Gallons.

VENETIAN PLASTER PROTECTIVE FINISH

Venetian Plaster Protective Finish adds durability in bathrooms, kitchens and high traffic areas. Gallons and quarts.

SCULPTURE STONE

Classic, sculpted dimensional finishes are easy to achieve. Create embossed and embedded designs and carved walls. Available in a Coarse & Smooth texture. To be used under glazes. Available in gallons.

QUARTZ ACCENTS

Quartz Accents has its own depth with the unique feel of rough-hewn minerals. Add Quartz Additive for a sparkling natural organic quartz look. Available in gallon tint base with 24 earthen colors.

SCULPTURE PASTE

Thick paste material for creating raised designs, especially with stencils. It is porous to accept additional glazes extremely well and can be blended with glaze to create tinted designs. Ideal for adding impressive designs to walls, furniture, cabinetry, and craft projects. Available in quarts.

CRACKLE PASTE

Unique paste material for creating rustic, raised designs, with stencils or can be used to create ancient looking cracked texture on larger areas. Perfect for adding aged designs to furniture, crafts, cabinetry and walls. Dramatic crackle will appear as the paste dries adding further, aged interest to your designs. Available in quarts.

FLAT COAT

For use with Weathered Crackle Glaze or as a first coat for Distressed Wood Glaze, Flat Coat is a versatile flat latex paint finish, tintable to hundreds of colors. Available in quarts.
